Headgrower

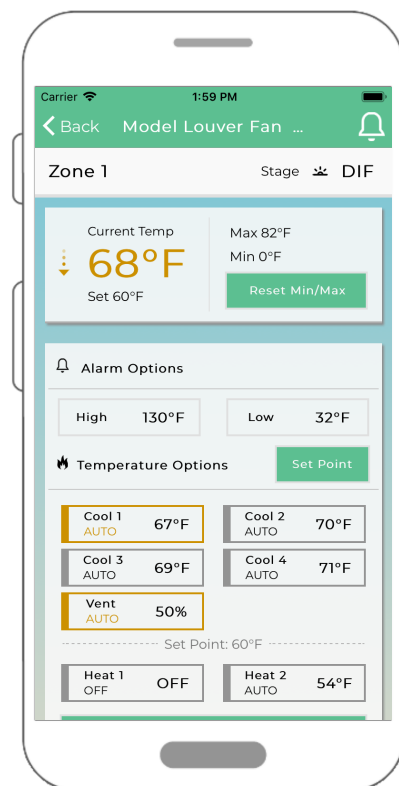

BARTLETT

— INSTRUMENT COMPANY —

**Control & monitor your greenhouse
from anywhere in the world!**

The Headgrower App used in conjunction with C.I.S (Computer Interface System) allows Bartlett controller users to connect up to **99 greenhouse controllers** per site. You can control and monitor all your greenhouses in one convenient place. The main screen shows a list of all your greenhouses and once selected, you can **check and change** settings for each house. Owners can grant **permissions** for different users, with different modes available: View Only, Edit, and Admin. Look for more great features as we continue to make improvements! Using the Headgrower app, you can access your greenhouse from **anywhere in the world**, which makes it a great addition to any greenhouse!

- Push notifications and alerts when problems arise.
- User friendly layout for easy monitoring
- Displays current conditions of the greenhouse with drill down to view and change settings.
- Various user modes: View Only, Edit, and Admin
- Monthly and annual subscriptions available
- One month free trial available!
